Single Layer RubbaGrass + A.P.E Foam Layer	1.3 m

Richard Nixon
Technical Director

Date: 10th January 2014

Note: The performance of in-situ laid materials is dependent on many factors; the tests performed on these samples reflect accurately their laboratory properties only. The CFH results obtained for this product will be affected by the temperature and moisture content of the soil beneath. Reference should always be made to the laboratory report relating to this certificate to ensure relevance to the intended situation. See report 15156/6831-6836.
